(start)

Store Manager
Selects "Store
Management"
from Main Menu

Display Store Management Menu

The store management menu is displayed

Store Manager Selects
"Finalize Daily Sales"

Finalize Daily Sales

The store manager finalizes the day's sales so the nightly batch process can run.

Store Manager Selects
"Request Inventory Replenishment"

Request Inventory Replenishment

The store manager requests the inventory level for a specific item be brought up to a specified level, and this request gets added to a parameter file to be processed by the overnight batch process

Store Manager Selects
"Exit Menu" from Store
Management Menu
